Arisha Mumtaz

⚲ Pakistan ✉ arishamumtaz340@gmail.com in/arisha-mumtaz ⦿ github.com/Arisha004

SUMMARY

Front-End Developer & UI/UX Designer with QA expertise. Skilled in React, TypeScript, Tailwind, Webflow, and Figma. Builds responsive, accessible, AI-assisted apps with clean design systems, smooth UX, and reliable releases

EXPERIENCE

UI/UX Designer
Ally Solutions (Contributor)   **March 2025 – Present, Remote (US)**

· Contribute to responsive UI in Figma/Webflow, create wireframes and clickable prototypes, and deliver developer-ready specs.

· Collaborate with engineering to refine components, states, and micro-interactions.

· Produced interactive design systems and component libraries to enhance consistency and streamline cross-platform development workflows.

Frontend Developer
Freelancing   **February 2024 – July 2025, Remote**

· Built and iterated on client websites and landing pages with HTML,CSS, Bootstrap, and Webflow.

· Managed repos on GitHub, handled feedback cycles, and delivered accessible, responsive front-ends.

Frontend Developer Intern
DevelopersHub Corporation   **March 2025 – May 2025, Remote**

· Developed UI components, fixed styling and JS issues.

· Created **mobile-first** web pages with HTML, CSS, and JavaScript.

· Collaborated with designers to bring Figma mockups into production.

· Implemented responsive design principles and interactive features using React and CSS frameworks, elevating user experience across multiple devices for client-facing projects.

UI/UX Designer Intern
Summer of Bitcoin   **February 2025 – May 2025, Remote**

· Proposed and conceptualized a complete redesign strategy for the 'Bitcoin Dev Project,' aligning design goals with user needs and project vision.

· Developed a comprehensive redesign roadmap for the 'Bitcoin Dev Project,' integrating user feedback and usability insights to optimize interface clarity and streamline user journey.

· Built **interactive design systems** and component libraries, reducing design-to-developers handoff time by 30%.

Hackathons
lablab.ai   **October 2024 – May 2025, (Apprenticeship) | Remote**

LabLab is a platform supporting AI innovation through resources, hackathons, and collaboration for developers and researchers.

· Designed responsive UIs in Figma and bringing it vision by front end coding, producing wireframes, clickable prototypes, and developer-ready specs. Partnered with engineering to refine components, states, and micro-interactions. Built interactive design systems and component libraries to ensure consistency and accelerate cross-platform development.

UI/UX Designer
Progmize   **February 2025 – March 2025, Remote (Islamabad, PK)**

· Delivered Webflow pages and Figma components according to project briefs, preparing detailed annotated handoff files for seamless developer collaboration.

· Improved design workflows by translating user research insights into interactive prototypes, enhancing usability, consistency, and overall user experience across digital interfaces.

SQA Intern

KK Solutions   November 2024 – February 2025, Remote

· Documented test case outcomes and compiled comprehensive reports to support ongoing quality assurance initiatives at KK Solutions.

Graphic Designer
Manhattan Data   October 2024 – February 2025, Remote (UK)

· Created **marketing assets**, social media posts, and branding materials.

· Designed **logos** and promotional visuals, increasing campaign engagement by 20%.

· Collaborated with teams to maintain consistent brand identity.

Hackathons
 Devpost   August 2024 – December 2024

Software platform and community for the world's hackathons.

· Contributed UI/UX design and front-end development for the **MoodFit** app in short sprints.

· Presented project summaries and progress updates to stakeholders for feedback and iteration.

Junior Frontend Developer
 Manhattan Data   April 2024 – May 2024, Remote

· Developed and optimized front-end features using HTML, CSS, JavaScript resolved console errors and refined design schema, improving usability, performance, and visual appeal by 25%.

PROJECT

Vibrant Anime Avatars
preview--vibrant-anime-avatars.lovable.app/ · July 2025 – August 2025

· Built a React + TailwindCSS avatar customization app with WebGL integration for rendering anime-style characters.

· Implemented color palette, pose selection, and export-to-PNG functionality.

· Used AI-assisted tools (Lovable, MGX) for rapid feature prototyping and debugging.

Accessibility Checker System
preview--ai-accessible-ai.lovable.app/ · July 2025 – August 2025

· Calculated Flesch Reading Ease scores and grade levels to assess text readability.

· Identified complex sentences (24+ words) and difficult vocabulary (13+ characters).

· Estimated reading time and customized readability targets for Grades 1–12.

AI Gesture Control
github.com/Arisha004/AI-GESTURE-CONTROL · June 2025 – July 2025

· Designed and deployed a real-time hand gesture control system using TensorFlow.js Handpose, enabling accurate in-browser gesture recognition for interactive and touch-free user experiences.

· Mapped gestures to UI actions for hands-free interaction.

· Fixed stability issues ensuring consistent gesture recognition on the frontend.

Business Nexus
github.com/Arisha004/Business-Nexus · June 2025 – June 2025

· Developed a networking platform connecting entrepreneurs and investors using React, TypeScript, Tailwind, and ShadCN UI.

· Integrated responsive UI with real-time updates and secure authentication.

· Optimized for accessibility and mobile performance.

EDUCATION

B.S. Computer Science

SZABIST UNIVERSITY · Karachi,Pakistan · 3.88

· Achieved a perfect 4.0 GPA in 4th semester and earned a merit scholarship in 3rd semester at SZABIST's Computer Science Department, known for its industry-focused curriculum, experienced faculty, modern labs, and strong industry links. Gained hands-on experience in programming, research, and innovative projects aligned with current technology trends.

Diploma in Information Systems Management

Aptech Pakistan · Karachi,Pakistan · 2024 · Distinction

· Awards: Student of the Month, Project of the Month, Full AttendanceFocus: Front-End, Back-End basics, UI/UX, phpMyAdmin, MS Office

Pre-Medical (Science)

Sir Syed College · Karachi,Pakistan · 2022 · A-One

CERTIFICATIONS

Introduction to API Testing with Postman

10 Pearls · 2025

· Skills: Postman, API Testing

QA Fundamentals

10 Pearls · 2025

· kills: Manual Testing, Test Cases, Regression, Smoke, Test Planning

Test Case Management with Testworthy

10 Pearls · 2025

· Skills: Test Cases, Test Planning, UAT

UI/UX Design Workshop

IEEE-SZABIST Karachi · 2025

UI/UX Design Workshop

 Te-links (NED) · 2025
